## Financial Agreement

**Client:**

**Date:**

The normal rate in 2010 for counseling at Lakewood Counseling Services is \$80 per session. Sessions are normally 50 minutes though can extend longer. Different rates can be negotiated and entered below.

Payment is due at the time of the session. However, statements can be sent (or e-mailed) monthly and payment is due when the statement is received. Interest is not charged as long as 1) payments are made on the account and/or 2) the client is still in active counseling. If, after counseling is concluded, monthly payments are missed, interest is charge from that point on.

Payments are not accepted in advance of services, nor, at this time, are credit or debit cards accepted for payment.

Even if session records are not kept, financial records must be kept for a period of 5 years.

Insurance, if it applicable can be billed. However, if insurance does not cover the cost of the counseling, the client is liable for both the deductible and what insurance did not cover.
